Volume 14, Number 3

Grand Opening of DCS Netlink's New Online Store

DCS Netlink makes it easy for you to purchase our products and services. We have now added e-commerce to our website, www.dcsnetlink.com. Ordering products from DCS Netlink is secure and quick, and you can do it from the comfort of your own home! Products currently available include WatchGuard and LMDC classes, SecureIT, ID Vault, XoftSpy, Acronis True Image, MPC Computers and more.

See page 2 for website coupons!

Want to give your customers the convenience of ordering your products online?

We can create an e-commerce website for your company!

Just think, purchases can be made 24 hours a day, 7 days a week, and payment for your products or services are made up front. Call by August 15th and we'll give you \$100 off the development of your e-commerce website*!

* Offer only valid for e-commerce websites. Not valid with any other offer. E-Commerce websites must be hosted with DCS Netlink.

About ID Vault:

- Guard against online identity theft and fraud schemes
- Hardened protection against phishing, pharming, keystroke-logging, Trojan Horses and more
- Stores and encrypts up to 40 username/password combinations
- Automatically signs you in to your online accounts with a few mouse-clicks—no more typing
- Remembers all your usernames and passwords—no more scraps of papers or forgotten passwords
- Plugs into any USB port

GRAND OPENING DRAWING: WIN A FREE ID VAULT!

One random customer who makes a purchase from DCSNetlink.com between now and August 31st will win a free ID Vault.

How to enter: Make any purchase on dcsnetlink.com before August 31, 2007 and your name will be entered in the drawing. Winner will be drawn on September 3, 2007.

MPC Computers

Configure and price your MPC Computer at dcsnetlink.com!

Desktops, Laptops and Servers available.

Call us at 715-236-7424 for discount pricing.

“Anything Computers & Everything Networks”

Did you notice? We've changed our “tag-line”! What prompted us to make a change? Well... Many of you have been our loyal customers for years, some just a little while. But still there are many out there who do not know what DCS Netlink does or what we have to offer. DCS Netlink has proven to be an industry leader in northwest Wisconsin (and beyond) – offering the first wireless internet service to the area; providing the area's first Managed Information Services (MIS) relationships; bringing professional web services right here where you want them (locally hosted) – just to name a few. So, what does DCS Netlink do? “Anything Computers & Everything Networks”!

Are you managing your IT infrastructure or just fixing what breaks?

Can't afford to hire your own IT personnel?

DCS Netlink can be your IT Staff!

DCS Netlink offers Managed Information Services (MIS). As your MIS provider, we become your IT department, or supplement your IT staff with the skills and expertise of the entire team at DCS Netlink. MIS, from DCS Netlink, allows you to concentrate on running your business, while, based on a schedule you have decided upon (weekly, monthly, etc.), we take care of your IT infrastructure.

Examples of MIS services are:

- Security planning, testing, and training
- Consultation, engineering, and implementation of IT solutions
- Data backup/restore solutions
- Site surveys and network documentation
- Antivirus program updates
- Scanning for Adware, malware, spyware
- Updates for Windows
- Updates for Productivity Suites such as Microsoft Office
- Computer Maintenance, including cleaning
- Server Maintenance
- Hardware Maintenance, upgrade, and/or installation
- Application Management and troubleshooting
- Disk Management

As a contracted MIS customer, you receive our "RED" response. If there is a mission critical failure of one of your IT components, DCS Netlink guarantees a response within two hours.

DCS Netlink MIS = Your silent partner in success.

Call DCS Netlink to become an MIS partner: 715-236-7424.

Save \$\$\$ On WatchGuard Boxes

Computer Cleanings

When was the last time you cleaned the inside of your computer? Dust and dirt can collect inside your machine which can cause overheating. Heat can adversely affect the performance of your system over time. Preventative maintenance cleaning should be done at least once a year. Bring it in to us and for \$20, we will professionally clean your computer and get it ready for the upcoming months. Give us a call today!

Computer Questions and Answers

Q: My computer is making a weird “clicking” sound—what is happening?

A: If your computer is making a clicking sound, it could be that your hard drive is failing.

1. Back up all your files immediately.
2. Bring it in to DCS Netlink for a professional analysis.

Q: I'm worried about what websites my 8-year old can visit; Is there a way to block sites with inappropriate content?

A: Yes. One of the easiest ways is to get SecureIT. SecureIT gives you fully-automated protection, removal of viruses, spyware and adware, automated hard drive maintenance and optimization, automated installation of tested Microsoft patches and **parental controls**. Visit www.dcsnetlink.com/SecureIT for more details.
